

Our Materials

We offer a range of materials across our expendable and returnable lines. Not sure what's right for your part? That's what we're here for.

EXPENDABLE LINE

			
<p>EXPENDABLE Smooth Kraft Paper Offered in a variety of paper weights for reliable, everyday part protection.</p>	<p>EXPENDABLE Nomar Kraft Smooth Kraft with a non-marring coating — ideal for painted and primed parts.</p>	<p>EXPENDABLE ESD Paper Protects sensitive electronic components from electrostatic discharge during transit.</p>	<p>EXPENDABLE Elite Fabric Eliminates the need for bagging parts — a versatile interleaf for a wide range of applications.</p>

RETURNABLE LINE

		
<p>RETURNABLE LX Spunbond PP fabric — durable, cost-effective, and built for returnable packaging systems.</p>	<p>RETURNABLE Evolon Thread-free Spunbond — highest protection for sensitive surfaces in returnable applications.</p>	<p>RETURNABLE Blue Plush Brushed Polyester fabric — highest durability and surface protection for premium parts.</p>

Not sure which material is right for your project?

Every part is different — that's why we start with a consultative meeting to understand your specific application before making any recommendation. Reach out and let's talk through it.
